How to use this guide

1

Each page shows one part of Forka Board. The numbers on the pictures match the numbered steps next to them. The pictures show what a staff member sees, with sample data. Your boards and names will be different.

Who this guide is for

For every member of staff who uses Forka Board. Department heads also create boards and choose who works on them; that part is not in this guide.

Need help?

Ask your department head, or send a message in your department channel in Chat.

Tips for good work

Forka Board helps only when it shows the truth. A few simple habits make it work for everyone.

Write clear titles 1

Start with a verb and say what "done" looks like.

Keep due dates real 2

If a date changes, change it on the card and say why in a comment.

Update the status 3

Move the card when the work moves on, and press Complete when it is done.

@mention, not WhatsApp 4

Write on the card and @mention the person. The message stays with the task and they get an alert.

Keep files on the card 5

Attach photos and documents to the task, not to a chat.

Urgent means today 6

Use High for important work that can wait a day.

A GOOD TITLE

Order 40 name badges for the Ajman team

NOT CLEAR

~~Badges~~

A good day with Forka Board

1. Morning: open My tasks and choose what to do today.
2. During the day: check the bell and answer mentions.
